Karen Moore
Technology Director
Humana, Inc.
500 W. Main Street
Louisville, KY 40202

Mrs. Karen Moore:

The position I am contacting you for is the open requisition for Technology Consultant within the Information Management & Analytics – Data Analytics Architecture area at Humana, Inc. I believe that I have the necessary skills and motivation to be the ideal candidate for this Technology Consultant role. I have the experience of translating business needs to IT planning and understanding for solution development projects in addition to managing tasks and projects in a fast-paced, dynamic environment.

I have been working as an intern within Humana's IT Solution Engineering area for just under two years on teams for Center for Medicaid & Medicare Services Audit IT, Enterprise Messaging Analytics, and in conjunction with business teams for solutions to their business needs. I have skills that have been enhanced regarding analytical and problem solving, satisfying strict deadlines, and optimizing processes for the past 2 years, using a variety of tools and programming languages listed below:

- Microsoft SQL Server
- TOAD for Oracle
- .NET Framework (C#)
- Team Foundation Server
- Git & TortoiseGit
- Other various systems and tools that we have been researching for automated testing options for our CMS Automated Universe Generation project.

Thank you for taking the time out of your day to review my resume and cover letter for the position of Technology Consultant within Humana's IT Data Analytics Architecture area. I look forward to hearing updates from you about the progress of my application. I can be contacted at any of the contact information on the attached resume.

Thanks in advance,

William Tyler Brown
